Specific service fluids (listed to the right) are called for depending on the type of transmission and the year the transmission was built. It is important to use the correct fluid, each fluid exhibits different properties and should be used only in the transmission for which they were designed. The vehicle owner or rebuilder should use the type of fluid printed in the owners guide or on the automatic transmission fluid level indicator. Refer to your scheduled maintenance guide to determine the correct service interval. Failure to use the recommended fluid may affect transmission performance and durability.

CAUTION:

DO NOT USE SUPPLEMENTAL TRANSMISSION FLUID ADDITIVES, TREATMENTS OR CLEANING AGENTS.
The use of these materials may affect transmission operation and result in damage to internal transmission components.

CAUTION:

MERCON[®] SP, Motorcraft Premium Automatic Transmission Fluid and Motorcraft M5[®] ATF's are unique fluids and **MUST** be used in applications recommending that particular fluid. Use of any other fluid may cause reduced functionality or transmission damage.

CAUTION:

The functional characteristics of fluids for the CVT transmissions are very different than those of other ATF's. Use of a fluid other than Motorcraft Continuously Variable Chain Type Transmission Fluid or one labeled as meeting MERCON[®] C may cause severe transmission damage.

**FAILURE TO USE RECOMMENDED FLUID WILL AFFECT TRANSMISSION PERFORMANCE.
REFER TO OWNERS MANUAL AND/OR FLUID LEVEL INDICATOR FOR PROPER FLUID TYPE.**

 – MERCON[®] V
Part number XT-5-QM (Quarts) and XT-5-DM (55 Gallon Drum) Ford Specification is MERCON[®] V .

NOTE:

AUTOMATIC TRANSMISSIONS REQUIRING MERCON[®] V SHOULD ONLY USE MERCON[®] V, OR FLUID FROM A CONTAINER THAT IS SPECIFIED AS A DUAL USAGE FLUID: MERCON[®] V / MERCON[®] .

 – MERCON[®] SP
Part Number XT-6-QSP (Quarts) and XT-6-DSP (55 Gallon Drum) Ford Specification is MERCON[®] SP.

 – CONTINUOUSLY VARIABLE CHAIN TYPE
Part Number XT-7-QCFT (Quarts)

 – PREMIUM AUTOMATIC TRANSMISSION FLUID
Part Number XT-8-QAW

 – MAZDA SPECIFIC FLUID
Part Number XT-9-QMM5

 – MERCON[®] – Part number XT-2-QDX (Quarts) and XT-2-DDX (55 Gallon Drum) or,
MERCON[®] V – Part number XT-5-QM (Quarts) and XT-2-DM (55 Gallon Drum)

NOTE:

AUTOMATIC TRANSMISSIONS REQUIRING MERCON[®] CAN NOW BE SERVICED WITH MERCON[®] ,
MERCON[®] V OR, DUAL USAGE FLUIDS LABELED MERCON[®] / MERCON[®] V.
